LAS VEGAS, NEVADA

"OUR SILVER ANNIVERSARY"  
APRIL 27-28, 1988

"ENVIRONMENTAL HEALTH - THE  
INTEGRATED APPROACH"

WELCOME

Wednesday April 27, 1988

The Nevada Environmental Health Association is happy to welcome you to Las Vegas for it's 25th Annual Educational Conference. Twenty five years is a long time for any organization to remain active and NEHA has demonstrated that it's members want to stay current on all aspects of Environmental Health as evidenced by the topics included here. The members represent a kaleidoscope of occupations; however a common thread attached to each one is our desire and determination to make this world a safe and environmentally stable place to live.

This year has seen many changes, especially with the gain of a Nevada Registration Act. Now that we have the recognition by the State of our professional status, we need to further our continuing education program.

Enjoy the Conference and I hope you find the topics educational, informative and fun.

Ralph G. Capurro, R.S.

---
