

Bio

Tami Bruno is a Disease Investigation and Intervention Specialist at the Southern Nevada Health District's Office of Epidemiology. She works with a team of investigators that conduct surveillance to identify disease outbreaks and potential threats to the health of Clark County visitors and residents. Ms. Bruno has been part of the Foodborne Illness Taskforce at SNHD since its inception and continues to be a part of both the planning and response teams that coordinate and investigate foodborne illness outbreaks. The FIT was formed to address gaps in foodborne illness response capabilities at SNHD. Ms. Bruno holds a Bachelors degree from the University of California at Berkeley and is currently working towards her Master's in Public Health at UNLV.
